Steel Magnolia Resonator

NEW 2019

A fixture to Luna bluegrass, the resonator guitar has long been the forefront of many blues, bluegrass and country albums, played by big name bands as well as independent artists. Although not always used as a lead player's guitar, the Luna Steel Magnolia resonator is considered to be a specialty guitar with many tuning options to fit all kinds of playing styles including slide guitar and finger picking. Originally created to deal with the overwhelming sound of piano, drums and other percussion instruments, one can expect the old raw and powerful sound from this iconic instrument.

- Body Material: Chrome Plated Metal
- Top Material: Chrome Plated Metal
- Neck Material: Mahogany
- Fretboard Material: Wenge
- Inlays: MOP Moon Phase
- Scale Length: 24 3/4" (629mm)

- Case Options: LLDG

VICKI GENFAN

Every now and then, an artist comes along whose music reaches out and touches the soul of all who hear it. Virtuoso guitarist, singer and composer Vicki Genfan is among those artists. Using 31 alternate tunings and the percussive technique she calls 'slap-tap', Vicki has been recognized among the world's greatest guitarists. Vicki Genfan started out playing the Muse 12-string and Luna Artist Trinity, but had longed for a Henna guitar of her dreams – with all the bells and whistles that her particular type of playing requires. To that end, Luna worked with master luthier Gray Burchette to build the ultimate Luna Guitar. Based on Vicki's dream Luna, we are proud to offer the Vicki Genfan Signature Acoustic. Featuring a solid spruce top laser etched with the same "OM" design that graces her own guitar, and rosewood sides and back, this guitar delivers acoustically.

VG SIG

VICKI SIGNATURE

- Body Material: Rosewood
- Top Material: Solid Spruce
- Binding: Diagonal Maple/Ovangkol
- Neck Material: Mahogany
- Fretboard Material: Pau Ferro
- Inlays: MOP Moon Phase
