

PROEL GROUP

Proel Group is a leading global company in the design, manufacture and distribution of audio-video and lighting systems for the world of entertainment and special events as well as for the installations sector, with 5 main companies operating in 120 countries.

PROEL world headquarters are located in central Italy. International markets are covered by a consolidated network of distributors, allowing the company to export its products to more than 120 countries all over the world. In 2008, alongside the current headquarters, Proel opened a state of the art 13,500 sqm dedicated automated logistics facility. Thanks to Asian partners manufacturing, Proel has been providing direct shipments from Asia to international customers, in order to provide efficient structured logistics operation.

The Proel Group of companies consists of:

Proel S.p.A.

Parent company with headquarters located in the province of Teramo, central Italy, is a leader in the design, manufacture and worldwide distribution of professional audio equipment, lighting systems and accessories for the world of entertainment, special events and installations.

Turbosound Ltd.

Award-winning designer and manufacturer of professional sound reinforcement loudspeakers located in the UK. Turbosound produces loudspeakers for the live entertainment and fixed sound system installation markets.

EVR Media S.p.A.

The company operates in both fixed and temporary installations of professional video systems for the world of TV and events. In addition, EVR Media manages schedules and plans for video systems for major users. Located in Udine, north-eastern Italy.

Eurosell S.p.A.

A leader in the distribution of video and led technology, for the rental market, integrated systems and fixed installations. Based in Udine, north-eastern Italy.

Proel America LLC

Based in Miami U.S.A., the company is the distribution, support and logistics office for Proel's products for North, Central and South America.

PROEL is particularly committed to Research & Development in terms of product innovation (increasing product ranges and optimizing product performance) and process innovation (new technologies and new testing techniques).

R&D activities are generally carried out in three facilities, two in Italy and one in Great Britain, provided with state of the art data collection, measurement and monitoring equipment.

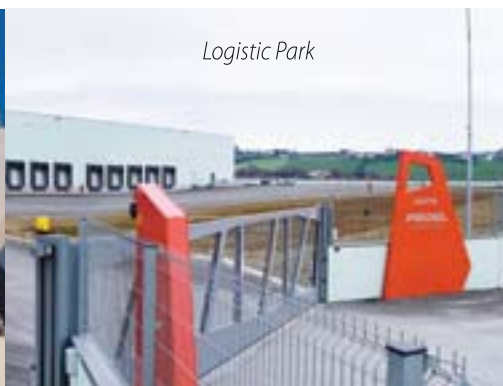

Its highly-focused R&D projects allow the company to optimize production cycles and develop new solutions.

Proel has established its current market position as the result of investments in Research and Development, direct products design, maximum and ongoing commitment to quality and innovation, care for the pre/post sales services, and a strong and consolidated distribution network in Italy and worldwide.

STAGE EQUIPMENT CATALOGUE COMPANY PROFILE

• The PROEL Master Catalogue is the company itself, the greatest expression of its personality and corporate culture, as well as its distinguished position and historical role concerning the market and its skilled intermediaries. The company has been totally involved in the realization of this work, from the Product Managers to the end users, who constantly give us support with their continuous feedback. Our attention to customer service monitoring, and evaluation and application of customer feedback has attained us an exceptionally high level of customer satisfaction. Thanks to the expansion of our Research and Development departments and increased control, over the quality of raw materials, we have successfully improved our manufacturing processes, applying a Quality System in accordance with the UNI EN ISO 9001:2000 certification. Our substantial business activity is confirmed by the notable globalization of PROEL, now present in more than 120 foreign countries. Therefore I introduce you our Master Catalogue and I can assure you that, at PROEL, we are already at work on the next edition.

PROFESSIONAL WORKSTATIONS

"PJW" Series

PJWORK02

• The innovative ergonomic structure of this new workstation has been designed to satisfy the requirements of both home and professional audio-video studios. The frame is made of sturdy steel tubes coated in epoxy powder, the work surfaces are made from MDF coated in a cherry-coloured laminate and with strong PVC edges, allowing it to be used with many different types of equipment, such as mixers, computers and keyboards. The workstation features two 4 unit 19" rack sections for the placement of electronic equipment and a convenient retractable sliding shelf for a computer keyboard. The main work surface is 18 mm thick, 1750 mm in length and 610 mm in depth and can be adjusted to three different height positions in height, 695, 735 and 770 mm. The top shelf is also 18 mm thick, measures 1960 x 375 mm and is positioned at 1000 mm from the floor.

PJW80

• 12 unit 19" rack fixture, with an epoxy coated tubular steel frame. Side protection panels also made of steel. The work surface is made from MDF coated in a cherry-coloured laminate with rounded edges in PVC. The unit measures 710 mm high, 610 mm deep and 530 mm wide. The special shape of the upper level allows the fixture to be easily coupled with the PJWORK02 workstation.

LIGHTING STANDS

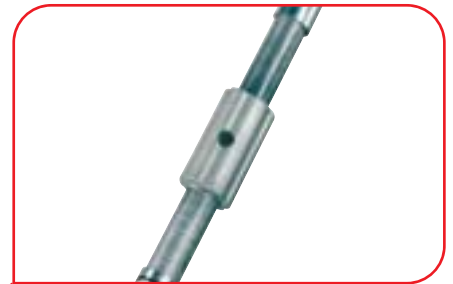

"PL" Series

PL100R

• Professional galvanized steel tube speaker & lighting stand, die cast aluminium parts. Supplied with a levelling leg controlled by an ergonomic die cast aluminium device, with anti-skid slots (includes a hole for screwdriver) to grant a perfect and constant vertical stand in extreme conditions. Features a patented "winch" with automatic brake to lift heavy speakers, lighting bars and trusses with the minimum effort. Each of the three feet features a professional aluminium footcap for any kind of application. Available in galvanized steel finish.

• Upper end detail with M10 x 20 hole.

• Leg levelling system detail.

• Adjustable leg detail.

19" RACK STANDS

"KR10" Series

• Series of modular 19" rack stands featuring new design, conceived to grant maximum flexibility to any studio requirement. Thanks to its modular organization, this line of 19" rack stands is very useful each time the volume of your equipment increases: you just have to add a stand at the base.. and that's it (the maximum vertical extension of modular 19" stands can reach up to 30 rack spaces). The entire series of modular 19" stands is made of steel tube with matt black finish: it is composed by a KR10BASE supplied with strengthened metal base shelf with steel cross bars to add maximum strength and stability, 4 resistant casters for carriage and perforated metal side panels for more stability and ventilation. Rear opening for an easy access to connections and cable management, ventilation, etc. It is possible to add 10 rack spaces to each KR10AD unit on the base made of the same structural elements.

KR10BASE

• Professional modular 10-unit 19" rack stand.
Supplied with metal base shelf and 4 casters.

KR10AD

• 19" rack module with 10 units to add vertically to the KR10BASE modular stand.

19" RACK CABINETS

"FSR" Series

FSR SERIES

• 19" rack cabinets (FSR) are manufactured with extruded aluminium frame. Removable roof, lateral panels and rear removable panel are made out of steel 15/10 RAL7032 finish. The extruded aluminium profile that molds the frame includes lug nut for shrouds, that together with the frame, guarantees a degree of IP55 protection. The front door is manufactured in steel 15/10 with glass window. The base is fixed and has an height of 70 mm. They enclose no.2 internal vertical rods to support the 19" rack components and no.1 accessories kit composed by no.50 M6 cage nuts, No.50 M6 x 15 screws and plastic lock washer.

ADKR (1 PC)

- Aluminium adapter to stack several KR10AD - KR10BASE series modular racks. Master pack: 1 pc.

AC104

- Galvanized cage nut for rack M6. Master pack: 12 pcs.

AC105

- Galvanized nut for sliding rack bar. Master pack: 12 pcs.

AC106C

- Recessed plastic kasher. Master pack: 12 pcs.

AC106

- Black galvanized screw M6x10mm. Master pack: 12 pcs.

AC106A

- Black galvanized screw M6x20mm. Master pack: 12 pcs.

AC106B

- Black galvanized screw M6x25mm. Master pack: 12 pcs.

KIT12

- 12 Screw (M6 x 10), 12 washer & 12 galvanized cage washer complete set for rack.

KIT12B

- 12 screw (M6 x 25), 12 washer and 12 galvanized cage washer complete set for rack.
