ABS CASES

- The “ABS Cases” line is the technological answer to those who ask for lightweight, strong and modular cases to hold and protect their professional gear. Made of ultra high molecular weight A.B.S. thermoplastic, every structure ensures manageability (in a rigid, safe, heavy-duty, ultra-light case). “ABS cases” offer the following standard features: gasket-sealed front and rear covers to provide maximum protection, reinforced interior, galvanized metal locks and stacking facilities. Ergonomic design handles with aluminium profile and inner steel threaded rack rails punched at international standards.

GUITAR & BASS ABS CASES "MFPRO" Series

ABS GUITAR CASES • Designed to offer a new level of protection, these guitar cases combine great style with quality craftsmanship. They also feature a tough ABS exterior shell and a rigid velvet-covered interior to prevent the instrument from moving inside the case.

19" RACK ABS CASES WITH TROLLEY "MFPROW" Series

ABS 19" RACK CASES WITH TROLLEY • the new PROEL Multiform 19" rack case line with trolley has been developed to allow easy transport of one's professional 19" rack gear. Thanks to its rugged pull-out handle featuring two preset positions, and two \varnothing 40 mm (1.57" in) roller-blade style recessed wheels, these new Multiform trolleys can be easily moved, even at full load, and placed flat without any stability problems. As its trolley system is completely recessed inside the structure, stacking capability is not affected. The first unit at the base of the case has a reduced depth and can fit only low profile equipment due the presence of the trolley system.

PROEL BAGS

- PROEL is glad to introduce a completely new line of bags and straps for the musical market, designed to meet any end user need, from amateurs to professional musicians.

Thanks to a constant research and to inputs received by musicians around the world, we have redesigned our range of bags and straps.

That has resulted in enhanced ergonomic details, stronger materials, safer handles and straps... Everything that is necessary for a "state-of-the-art" professional line.

We use the best tested materials and pay attention to every single manufacturing detail: strong metal zips, heavy padding, safe handles. PROEL "Bags & Straps" line is the perfect mix between quality and competitive prices... You can ask any of our 100.000 customers.

PROEL GUITAR & BASS BAGS

"100" Series

• The new "100" series of soft guitar bags has been designed to satisfy the need of students who are taking their first steps into the world of musical instruments. Highly resistant and highly practical, the bags are made with a soft, rip proof 420D Nylon with a cloth outer borders. The "100" series line bags are equipped with comfortable handles, reinforced with Velcro, a resistant adjustable shoulder strap secured to the bag with metal rings and with wide pockets for music books and accessories. The bags also feature resistant zips with die cast pull tags.

BAGS & STRAPS

PROEL GUITAR & BASS BAGS - "200" Series

• The new "200" series of guitar bags has been designed for the amateur musician who is looking for a bag that is both resistant and practical, yet at the same time at a right price level. Constructed from soft 420D tear proof Nylon with cloth outer borders, the "200" series bags feature resistant 10mm high density foam padding and a 90D Nylon interior, with reinforcement at the headstock and the bridge. The handles are padded for maximum comfort, can be closed with Velcro. The bags also feature a conveniently placed back handle made from reinforced Nylon. The padded shoulder strap is adjustable and secured to the bag with sturdy metal rings. Wide pockets are positioned on the front of the bags for music books and accessories and the resistant zips feature die cast pull tags.

PROEL GUITAR & BASS BAGS

"INNOVATION" Line

• The INNOVATION series of bags have been designed with the semi-professional musician world in mind, where a higher quality product that is both very resistant and extremely practical is required. The bags are made from resistant 840D Nylon with cloth borders, resistant 20mm padding, a 90D Nylon interior, and extra inserts to protect the bridge and headstock of the guitar. The handles are made from Nylon and reinforced with Velcro. The padded shoulder strap is adjustable and secured to the bag with sturdy metal rings. Wide pockets are positioned on the front of the bags for music books and accessories and the resistant zips feature die cast pull tags.
