

PROFESSIONAL ASSEMBLED CABLES

- PROEL professional cables have been synonymous for quality, functionality and versatility on the international market for many years. Whatever the type of connection required (musical instrument, mixer, microphone, speaker, MIDI, digital, computer, etc.), you will find the suitable PROEL cable for your needs. Thanks to its first choice assembly materials and the use of the most advanced manufacturing technology, PROEL grants the highest quality level available in today's market.

PROFESSIONAL ASSEMBLED CABLES

"Products Range"

• PROEL has for many years been recognised as a manufacturer of high quality connection systems, able to provide a vast range of products to satisfy the most demanding and specific requirements for the world of entertainment. The following sections highlights the more commonly requested connection systems which make up our standard production. Should there be a type of cable or connector system that you require that cannot be found here, please do not hesitate to contact us with your request. Our professional team of technicians will be happy to work together with you to create a customised product to meet your needs. With dedicated assistance from the system design through to after-sales service, we can guarantee the satisfaction of even the most demanding end-user

MAIN ASSEMBLING INSTRUCTIONS

JACK

- A) Slide the boot onto the cable.
- B) Prepare cable as shown.
- C) Solder the wire ends.
- D) Position the chuck onto the cable and align chuck with plugfinger.

Attention:

If using a cable with O.D. > 5.50 mm [0.216"] break away this part of the chuck.

- E) Slide the housing onto the plugfinger with the chuck.
- F) Finish the installation by tighten the bushing onto the connector.

XLR

- A) Slide the boot onto the cable.
- B) Prepare cable as shown.
- C) Insert wires into the terminals and solder them.
- D) Put chuck onto the cable.

Attention: Pay attention to the guiding key.

- E) Slide insert and chuck together into the housing.
- F) Finish the installation by turning the bushing onto the connector.

SPEAKON

- A) Place bushing and chuck over cable.
- B) Prepare cable as shown.

Important is the stripping length of 25 mm and 12 mm.

- C) Insert wires into terminals and secure clamp terminals with screw driver.
- D) For easy wiring especially on big cables, first screw on the inner contacts 1+ and 2+ and afterwards the outer contacts 1- and 2-!
- E) Push chuck up to housing.

Important: Align the chuck by positioning the nose into the recess.

- F) Tighten the bushing

PROFESSIONAL ASSEMBLED CABLES "Esoteric" Series

• "ESOTERIC" Series assembled cables represent the pure essence of sound free of any distortion or interference, being the result of a completely automated technological process combining highest quality cables and Neutrik's best and most reliable professional connectors. PROEL has developed the "ESOTERIC" series to meet professionals requirements of a pure, accurate and reliable signal. All cables are completely realized in 100% pure copper in order to grant a very low capacitance and a perfectly sharp and intact signal. Each cable is mechanically and electronically tested in order to guarantee quality and performance. "ESO" series, already recognized as an international leader in its field, is the reference name for any professional audio application, both fixed and mobile, and it represents the ideal partner for the new digital realities.

PROFESSIONAL PREMADE CABLES "Challenge" Series

• Drawing on nearly two decades of experience in the field of Professional cables, Proel is proud to present the new "CHALLENGE" series of assembled cables. A professional series of pre-assembled cables featuring original NEUTRIK connectors, the CHALLENGE range is composed of instrument, microphone and audio interconnect cables of various lengths and configurations. To assist the signal transfer, the XLR, JACK, RCA and MIDI connectors feature very high quality gold plated contacts. Very high quality yet affordable the CHALLENGE series has already encountered a huge success since its recent launch. We are sure that everybody used to the quality of Proel cables will be highly satisfied with "CHALLENGE"!

PROFESSIONAL ASSEMBLED CABLES "Stage Innovation" Series

• The STAGE INNOVATION series of cables represents an important step in the market of pre-assembled leads - for the professional user who is looking for the perfect match of high quality at an affordable price. At PROEL we recognise just how important it is to have a cable that is both reliable and long lasting. Made from high quality materials and manufactured to the highest criteria, STAGE INNOVATION can meet these requirements. Featuring the best PROEL metal connectors, STAGE INNOVATION stands alone for its highly professional, ergonomic characteristics and a modern and extremely aggressive look. The result? A high quality professional cable that you can rely on for many years

DIGITAL OPTICAL CABLES

• All PROEL digital optical cables employ a professional digital plastic fibre optical (POF) cable Ø 4 mm, with inner anti-interference, phasing-error correction, protective shield. This cable grants a high signal-noise ratio, very low leakage, high shielding against interferences that make optical fibre cables ideal for digital connections. Thanks to its peculiar features, optical fibre is an excellent choice in long-distance cabling.
