"I am 100% sold on the quality, sound and consistency of D'Addario XL strings. From the recording studio to headbanging live inferno - these are the only strings that go on my guitars."

- Metal Mike Halford

"I've been using D'Addario strings ever since I started playing - EXL140 strings are the most durable and musical strings I've heard. They don't break when I play live. They stay in tune very well, and sound awesome."

- Jeff Stinco Simple Plan

EXP™ Nickel Round Wound

D'Addario EXPs deliver the most natural-sounding, longest-lasting coated strings available. Through our advanced EXP Coated Technology, we have perfected the art and science of coated string-making to deliver extended play strings that sound identical to our world famous XLs. Plus, we've dramatically improved the corrosion resistance, longevity and durability of plain steel strings through an exclusive compound tinning process. Finally, coated electric strings that deliver longer life, completely natural tone and the feel of uncoated strings. You won't believe they are coated!

NEW! EXP™ Reds

EXP Reds use a proprietary outer wrap wire made of copper coated steel which is then micro-coated utilizing D'Addario's EXP technology. Like a standard electric bass guitar string, the outer wire is highly magnetic, but the copper coating imparts a more "acoustic" tone on basses with magnetic and/or piezo pickups.

### XL ProSteels™ Round Wound

ProSteels are D'Addario's brightest and most magnetic bass strings. A specialized alloy delivers harmonically rich, brilliant, high end coupled with deep, tight lows that work in tandem to create the "piano tone" steel players crave. ProSteels are the new sounds of steel!

### NEW! XL™ Nylon Tapewound

Tapewounds may be used on fretted or fretless basses and are designed to deliver a vintage tone ranging from the "thump" of an upright bass to the focused depth of traditional flat wound strings. Flattened black nylon is polished to an ultra-smooth finish to produce a long-lasting, well-balanced string with optimal tension and gauged to fit properly on standard bass saddles and nuts.
