from **Yvonne de Villiers** and **Luna Guitars**

American poet Mary Oliver ends her poem, *Summer Day*, with these lines:

*Tell me, what is it you plan to do
 with your one wild and precious life?*

More likely we ask ourselves, if money were no object, what would I do with the rest of my life? However you answer these questions, I would urge you to listen to yourself! Begin now, and pursue your answer with all your heart.

If your answer is music, or any art form, you may struggle with another question: "am I good enough to call myself an artist?" Let me counter. "Does this calling make me come alive?" If the answer is yes, your art will be worthy – and joyous.

If keeping your day job is a necessity, then spend your laboring hours remembering why you work, and what it is you labor for. Remembering what sets your soul on fire. Art is work, too, so you know in your bones how work can be made into art. No matter what you do, put your heart, mind and soul into the smallest details of it. The flow from your work to your art - and back again - may surprise you. All your days and your nights may become a kind of fiery play. And the results of your effort may change much and many around you.

Be daring. Be impractical. Be bold. Do the thing that excites and compels you, the thing that scares you. Fuel the practice of your craft with authenticity and openness. Manifest the music you were born to play, the canvases you were meant to paint, the pages you were destined to write.

Your one precious life is yours alone. Pay attention to your fire, to your ache, to your most courageous heart.

*"The one thing you have that nobody else has is you.
Your voice, your mind, your story, your vision."* - Neil Gaiman

Players asked, and Luna listened. We are delighted to present the Artist Series... beautifully appointed instruments featuring a solid back, ebony headstock, fingerboard, bridge and binding, as well as B-band's T55 preamp system. The simple and elegant designs for these instruments were inspired by three international design movements — Art Nouveau, Arts & Crafts, and Art Deco.

Art Nouveau (1890-1910) was inspired by natural forms & structures, not only in flowers and plants but also in curved lines. Luna interprets the movement's organic feel with both a stylized, floral-inspired rosette, and a fingerboard design of mother-of-pearl against ebony — both graceful and understated. This organic look is further emphasized by a solid spruce top, mahogany neck and solid rosewood back. The Nouveau is a tasteful instrument, for the most discriminating player.

ART CRAFTSMAN

"To practice any art, no matter how well or badly, is a way to make your soul grow. So do it." - Kurt Vonnegut

The Arts and Crafts movement flourished between 1860-1910 and started as a reaction against the styles developed by machine production. Objects were simple in form, without superfluous decoration - and they tended to emphasize the qualities of the materials used ("truth to material"). Their patterns were greatly inspired by flora and fauna.

Luna's Craftsman guitar has many of the same characteristics as its namesake movement. Its simple rosette and fret markers were inspired by a classic 'rose' design made famous by Dard Hunter, one of the most well-respected designers of the era. It is crafted of solid spruce, ebony, mahogany and koa - with mother-of-pearl inlay - for excellence in both form and tonal quality.

"In order to be irreplaceable, one must always be different." - Coco Chanel (Deco fashion designer)

Art Deco is an eclectic artistic & design style that began in Paris in the 1920s, and flourished internationally. It represented elegance, glamour, functionality & modernity. Its linear symmetry was a distinct departure from the flowing, asymmetrical, organic curves of its predecessor, Art Nouveau.

Luna's Art Deco guitar has a clean, crisp design that perfectly reflects the Deco movement. The mother-of-pearl inlay, stunning against ebony, is a perfect example of Deco minimalism. These instruments merge elegance and functionality that add up to a truly exceptional instrument.

The HeartSong Series is another Luna innovation, sparked by asking players what would facilitate their creative process. What we heard is that flashes of creativity do not always happen at opportune times – and inspiration is sometimes lost. Luna got to work with B-band to develop a "plug and play" system with a USB output that allows a player to capture their creativity on the fly.

These ingenious instruments are available as parlor, grand concert, 12-string grand concert, or folk nylon versions – all featuring a distinctive treble/bass clef inlaid mahogany and lacewood rosette, and a pearloid fingerboard design inspired by musical notation.

And for you Vegans out there that have been requesting a guitar without mother of pearl or abalone, we can recommend this guitar as having no animal by-products.

HORSE
NEW!

"You have to speak your dream out loud." - Kelly Corrigan

Ancient Celtic interlace patterns, interpreted in a contemporary fashion at the sound hole of these instruments, create a stunning look - punctuated by a pelta mother-of-pearl motif at the 12th fret, against an ebony fingerboard. A circular triangle is found at the headstock, and echoed at the heel stock, for the player's enjoyment.

The swan is a symbol of love and fidelity, because swans sustain their relationship for life. The swan also has a connection to music, as its feathers were often used in the ritual cloak of the Celtic bards.

The horse was revered by the Celts for its speed and vigor, and associated with sovereignty, abundance and guidance.

AMD SERIES GUITARS

The Americana Collection has a classic, traditional look... and designs drawn from our unique cultural heritage.

The **AME 100** features the bald eagle...the only eagle unique to North America, and the emblem of the United States since 1782 because of "its long life, great strength, and majestic looks." This guitar is as visually sleek and sonically powerful as its inspiration.

The **AMT 100's** etched pick guard design suggests the feel of tooled leather, and the herringbone binding suggests stitching - both evocative of the American West.

For the purists who want a strictly traditional look without a preamp, the **AMD 50** offers finesse and uncompromising sound quality. The **AMD 100** offers the same features as the **AMD 50**, but with the addition of a B-Band® preamp in a cut-away profile.

AMM 100

The AMM 100 was inspired by American Southwestern Mimbres' classic, black-on-white pottery. Rabbits are common symbols of the moon in S.W. and Central America; our "rabbit on the moon" fretmarker was taken from a pottery bowl. The jagged triangular motif around the sound hole recalls lightning - also based on an ancient bowl design.

AMZ 100

The AMZ 100 was also inspired by American Southwestern pottery. Zia pottery is distinct, because it is made with clay that fires to a rich reddish tone - reflected in the AMZ's sunburst finish. The maple fret markers are a Zia sun symbol, also seen on the state flag of New Mexico. Moving down (or up) the neck, the sun is seen to set and rise - symbolizing the never-ending cycle of life. The sound hole rosette is a traditional motif, seen around the mouth of water jars - which were essential in the Southwest.

The Henna Series incorporates our folk style cutaway body, pairing its mahogany sides and back with either a solid Cedar or solid Spruce top for tone that is uniquely pleasing and distinctive as the instrument's show-stopping henna artwork. A second henna design graces the abalone Luna logo on the gently curved maple headstock. Elegant and durable brushed nickel tuners provide smooth, precise adjustment.

The henna design, a custom creation of renowned UK artist Alex Morgan, is faithfully reproduced through leading-edge laser etching - in effect, tattooing the intricate design into the instrument's wood.

Following Luna's innovative tradition, The Oracle Series foresees the future of guitar architecture, and takes solid top guitar ornamentation into uncharted territory. Some Oracle designs are the same as those found in the Flora and Fauna series, for those players who prefer a solid top and natural look - while others are exclusive to the Oracle series.

A fanciful trio of inlaid dragonflies gathered around the soundhole on a solid spruce top makes the Oracle Dragonfly among Luna Guitars' most distinctive models.

*"I'd rather be a failure at something I love

ORACLE TATTOO

The Oracle Tattoo is inspired by traditional tattoo body ornamentation. Those designs were monochromatic - tattooed in black against brown skin, with strongly geometric patterns and shapes and symbols inspired by the natural island world. This instrument is tattooed by laser etching against a solid cedar top, offering a warm look with equally warm tones.

ORACLE PEACE

"Imagine all the people, living life in peace" - John Lennon
 The Oracle Peace is Luna's offering to remember all who have dedicated their lives to peace - and to help imagine peace through music. A laser-cut peace sign at the sound hole is surrounded by laser etched words for peace in different languages, forming a graceful continuum across the solid spruce soundboard.

*"The circulation of confidence is better
 than the circulation of money."* - James Madison

ORACLE KOI

The koi's popularity in contemporary tattoo inspired Luna to offer this symbol as a companion to the Phoenix, which is also a favored subject for body art.

The intricate koi design is inlaid in mahogany against a solid spruce top with mahogany back and sides. The koi is a symbol of perseverance. It is Luna's fondest wish that the koi will help players to persevere in their music and their lives.

ORACLE PHOENIX

A symbol of rebirth, the phoenix represents beauty, power, vision and inspiration.

The triumphant spirit of the phoenix is perfectly captured in rosewood inlaid against a solid spruce top. Its full folk profile and onboard preamp delivers a sound as rich and freeing as the creature that inspired the design.

Luna's Zen awakens players to their own true nature. The maple fingerboard is inlaid with Rosewood calligraphy that reads Wisdom, Beauty, Truth, Courage, Grace, Peace and Love. The sound hole is surrounded by a Rosewood inlaid Bagua against a solid Sitka spruce top.

*"Practice! The value of routine;
trusting your swing."* - Lorii Myers

Every now and then, an artist comes along whose music reaches out and touches the soul of all who hears it. Virtuoso guitarist, singer and composer Vicki Genfan is among those artists.

Using 31 alternate tunings and the percussive technique she calls 'slap-tap', Vicki has been recognized among the world's greatest guitarists.

Vicki Genfan started out playing the Muse 12-string and Luna Artist Trinity, but had longed for a Henna guitar of her dreams – with all the bells and whistles that her particular type of playing requires. To that end, Luna worked with master luthier Gray Burchette to build the ultimate Luna Guitar.

Based on Vicki's dream Luna, we are proud to offer the **Vicki Genfan Signature Acoustic**. Featuring a solid spruce top laser etched with the same "OM" design that graces her own guitar, and rosewood sides and back, this guitar delivers acoustically. When plugged in, the B-Band® preamp provides stage-worthy amplification.

FLO MOON CUSTOM

The Moonflower is an apt addition to Luna's Flora series, as the Moonflower's large, white trumpet-shaped blooms start to open at night under the moon. A sphinx moth poises at the edge of the moonflower's bloom at the sound hole while the same flowers twine down the fingerboard. Leaves and flowers strategically mark the 3rd, 5th, 7th, 9th, 12th, 15th, 17th, 19th and 21st frets.

Moonflowers are revered throughout many cultures as a medicinal or sacred visionary plant. Because they only bloom at night, they are a metaphor for the fact that out of the darkness comes creative blossoming.

LOTUS**

"Imagination is the true magic carpet." - Norman Vincent Peale

Luna's beloved Lotus guitar has been given a fresh new look. In this custom version, the fingerboard resembles a lotus pond as seen from above - with leaves, flowers and koi fish strategically marking the 3rd, 5th, 7th, 9th, 12th, 15th, 17th, 19th and 21st frets.

The lotus is symbolic of purity of the body, speech and mind... the beautiful flower has its beginnings in the mud, yet is unstained. Its unfolding petals also suggest the expansion of the soul.

SAFARI PEACE

"...and in the end, it's not the years in your life that count; it's the life in your years." - President Abraham Lincoln

These little dreadnoughts make the perfect traveling companions... light on your back, and easy on your wallet! Though compact, these guitars deliver 100% full tone and voice. Beautifully handcrafted of select spruce or mahogany, they offer a mini sampling of some of Luna's most beloved designs, and double as ultimate student guitars for young players. Great sound! Great Fun!

The Peace design on this Safari travel guitar is a very special one for us here at Luna, as it embodies a philosophy that we hold dear. A laser-cut peace sign at the sound hole is surrounded by the word 'peace' in different languages, forming a graceful continuum across the sound board.

MO'O CONCERT CEDAR

"What am I living for and what am I dying for are the same question." - Margaret Atwood

To the early Hawaiians, the **mo'o** (lizards) were a symbol of spirituality and good fortune. Shape-shifting and agile, lizards are one of the oldest and most powerful of Polynesian guardian spirits. These graceful lizards intertwine amongst tropical *Monstera Deliciosa* leaves on a solid cedar top with mahogany back and sides. These lucky Mo'os (pronounced mo-ho) are sure to bring good mojo to your playing!

"When you lost sight of your path, listen for the destination in your heart." - Katsura Hoshino

Luna's **Tattoo series** ukuleles take their design from traditional Hawaiian body ornamentation. The designs were monochromatic, tattooed in black against brown skin. The patterns and layout were strongly geometric, and there were many shapes and symbols which represented the natural island world – stones, waves, fish, sharks, turtles, rain, sun, birds, et cetera. The design is primarily based on waves and shark's teeth – which are also echoed as fret markers.

KALA 6" SOPRANO

ULU 8" CONCERT

RESONATOR UKE

The patterns etched onto the back of Luna's **banjoleles** are a tribute to traditional Hawaiian quilt design. The old legends say a breadfruit pattern was the first truly Hawaiian quilt design, and the first design traditionally used by beginners of the craft. Luna has chosen the ULU (breadfruit) and KALO (taro plant) as inspiration, because both of these plants were sacred, and an essential part of early Hawaiian life.

'Banjolele' is a generic nickname for the instrument, which was derived from the 'banjulele-banjo', introduced by Alvin D. Keech in 1917. The instrument achieved its greatest popularity in the 1920s and 1930s. It combines the small scale, tuning, and playing style of a ukulele with the construction and distinctive tone of a banjo - hence the name.

RESONATOR UKE

The "UKENATOR", or resonator ukulele, is an amazing addition to any uke collection. The front is etched with a traditional Polynesian tattoo design inspired by tiki gods... large wood and stone carvings of humanoid forms, found in Polynesia.

The resonator ukulele is a descendant of the resonator guitar, which was originally designed to be louder than conventional acoustic guitars overwhelmed by horns and percussion instruments in dance orchestras. A resonator ukulele is louder than a standard wooden ukulele, and has a different tone quality.

ELECTRIC LAP STEEL **NEW!**

"Great spirits have always encountered opposition from mediocre minds." - Albert Einstein

Acoustic lap-style guitars first emerged in Hawaii in the 1890s, where players raised the action of their standard guitars, laid them flat on their laps, and learned to play melodies with a metal bar sliding along the strings. Los Angeles-based luthier Hermann Weissenborn refined the concept in the 1920s. Electric lap steels were developed in response for the desire for louder volume.

Luna's Weissenborn-style acoustic and electric lap steel offerings feature the same distinctive abalone fret markers as our High Tide series ukuleles. A full moon at the first fret tugs at the waves that grace the rosewood fingerboards.

STEEL MAGNOLIA

The resonator guitar is a favorite of Hawaiian, blues, country, and bluegrass players. We wanted a design that would appeal to the vast geographical stretch from Hawaii to the Mississippi Delta. Since different species of the lovely Magnolia tree are found in all of these areas, a Magnolia blossom seemed to be the perfect choice... hence, the **Steel Magnolia**.

"Do one thing every day that scares you." – Eleanor Roosevelt

Easily the most recognizable and ancient Celtic knot work design of all, it is a knot with no beginning or end... a continuum of many meanings. Like all Celtic knot work, it symbolizes the eternal cycle of life.

It has symbolized the three phases of woman (maiden, mother, crone) and of the family (mother, father, child), as well as the three planes of existence (body, mind, spirit). Since the fourth century it has represented the triplicate nature of the Christian faith (Father, Son and The Holy Spirit).

APOLLO SERIES APOLLO PEACE

Some of our best-loved etched designs from our solid-top acoustics now grace the tops of three solid-body electrics in our popular Apollo profile... the **Apollo Tattoo** shown above, the **Apollo Paradise**, and the **Apollo Peace**. All three are etched on solid mahogany with a bolt-on neck, dual humbucker pickups, and black nickel hardware – and are priced affordably to be accessible to any player wanting to make a statement and a sound investment.

The Peace design on this **Apollo Peace** guitar is a very special one for us here at Luna, as it embodies a philosophy that we hold dear. A laser-cut peace sign at the selector switch is surrounded by the word 'peace' in different languages, forming a graceful continuum across the body.

APOLLO SERIES

The **Apollo Tattoo** takes its bold design from traditional Polynesian body ornamentation. Those designs were monochromatic, tattooed in black against brown skin with strongly geometric patterns and shapes and symbols inspired by the natural island world. This instrument is tattooed on mahogany by laser etching.

The **Apollo Paradise** is based on the art of Medieval Spain. The culturally rich and diverse period is the only one in which Henna was grown and used as a cosmetic in Europe. The era also was historically important in development and growing popularity of the guitar.
